TARTAN GOLD

ATHLETICS

Polytan's Tartan GOLD is a high-performance surface for elite international sport that shines both inside and out. Its combined construction features a full PU top layer and cushioning levelling layer that makes the water-permeable Tartan surface exceptionally durable and highly shock absorbent. Thanks to the interspersed granules in the wear layer, Tartan GOLD is ideal for running shoes with spikes. Because it also offers extremely high acceleration, energy-boosting tread elasticity, and high abrasion-resistance, it is the perfect surface for record-breaking sport – certified in accordance with World Athletics requirements.

TARTAN GOLD

PROPERTIES

- Multi-layered poured surface
- Impermeable
- Granules interspersed with visible tips, extremely spike-compatible
- Combination of full PU top layer and cushioning levelling layer

AREAS OF USE

- Competitive running tracks
- Athletics stadiums
